

Search #935 Financial & Operations Accountant

The Organization

Our client is a Calgary-based, well-financed and operationally active private midstream company established in 2016. They own and operate a platform of companies focused on Western Canadian midstream infrastructure. Their continued growth is initiated through acquisitions, expansion of existing facilities and new builds.

Why Consider This Role?

- They currently have assets in place greater than \$3 billion and backstopped by long term contracts. This demonstrates their financial strength and management's ability to close
- Your work contributes to the decision-making process immediately
- With a culture of success several times in the past, our client is building this company for the long-term. Consequently, a high performer will have career upside
- This is a dynamic company and a dynamic role. Attitude, initiative and work ethic are hallmarks of the founders

Team Dynamics

As a member of a multidisciplinary financial and operational team, the Accountant will report directly to the Controller, work closely with the CFO along with operations and management ensuring optimization of the company's asset base.

Activities and Responsibilities

The successful candidate's duties will involve Finance, Treasury and day to day accounting. In addition, you will have input on data management, administration and controls/supply chain.

- Perform the day-to-day accounting for a group of corporations and partnerships including A/P, A/R, Bank reconciliations, GST filings, G&A recovery, G&A budget, and more.
- Assist with the preparation of monthly, quarterly and annual financial statements and notes, including the preparation of supporting schedules.
- Assist with the preparation of the annual management discussion and analysis
- Work in conjunction with Controller and CFO to ensure the Corporation's assets are safeguarded

Qualifications and Experience

- Designated accountant with 3-5 years of related work experience within or working with midstream, pipeline or upstream industries in Western Canada
- Progressive experience is required in an accounting/finance department where you supported the full-cycle accounting process
- Ability to demonstrate accounting practices, procedures and systems with a good understanding of IFRS
- Qbyte and CaseWare experience is an asset, advanced excel user and strong general systems aptitude
