

Search #974 Chief Financial Officer

Organization

Our client is investing in energy development in Turkey. As a growing Canadian public company, they are exporting knowledge and talent from Canada to expand their assets in an established basin. These producing assets have long – life reserves and market access in Turkey as well as Europe.

Why Consider This Role?

- You are the key individual for the financial growth and health of the company.
- As a public company, your experience of IFRS, financing and regulatory compliance will guide the company.
- As a dynamic, growing organization, nothing is cookie cutter. Attitude, adaptability, initiative, creativity, and work ethic are hallmarks of the founders, and will benefit your career growth.

Team Dynamics

Based in **Calgary** with travel to Turkey, the new CFO will report directly to the President, you will work closely with staff in Turkey and management in Canada ensuring the details of your responsibilities meet/exceed execution of the business plan.

Activities and Responsibilities

This position is the leadership and authority for all accounting, reporting, financing, and other financial matters of the company, along with coordination of interface functions with the shareholder and related governance of a public company.

- Platform and Business Unit Financial statements / IFRS preparation & reporting / MD&A
- Auditor / Audit Committee / Canadian interface and accountability
- Canadian and Turkish Tax compliance, planning and optimization, including regulatory filing
- Treasury, general corporate accounting / accurate cost allocation to business units
- Oversight of the annual budget cycle / alignment with corporate model
- Continuous improvement areas of corporate finance processes and systems
- Capital structure optimization. Bank debt oversight and optimization
- Maintenance of shareholder and bank relationships
- Personnel related policy development and maintenance. Office Services, Information Technology
- Governance, such as support for President with board meeting organization, coordination with Board chair and other Directors Maintenance of corporate minute books Maintenance of corporate structure – setup of new entities, compliance Platform risk management / insurance oversight

Qualifications and Experience

Following your degree in finance and accounting, you'll have 15-20 years demonstrated, progressive roles. Starting in public practice covering areas such as tax and audit, this will be further supported by experience in the public upstream and/or midstream energy industry in Canada and internationally. You're a self-starter with the ability to contribute at both a strategic and a detailed operational level. Strong leadership and interpersonal skills to effectively balance assertiveness and diplomacy. A demonstrated ability to build relationships quickly and effectively with numerous internal and external stakeholders. Strong problem solving and decision-making skills. Excellent verbal and written communication skills.
